Thyroid Activator®

GOOD FOR

Endocrine System

Thyroid Gland

Lymphatic System

SIZE **100 Capsules**

ITEM # **1224**

SERVING **2**

SUPPLY **16 days**

DIRECTIONS FOR USE Take 2 VegCaps with a meal three times daily.

— How the Key Ingredients Work

Thyroid Activator® brings together a carefully chosen blend of sea-sourced minerals, nourishing greens, and time-honored herbs that work together to support healthy thyroid function, natural energy, and whole-body wellness. Each ingredient plays its own role in helping your body stay balanced and running smoothly.

Kelp — Kelp is a nutrient-rich seaweed that has long been valued as a natural source of iodine, the mineral your thyroid depends on to do its job. Beyond thyroid support, kelp contains a soluble fiber called alginate that helps you feel fuller longer, and natural compounds that support healthy blood pressure and circulation.

Spirulina — This deep-green superfood from freshwater algae is packed with iron, B vitamins, and a powerful pigment called phycocyanin that helps your body fight everyday oxidative stress. Studies show spirulina supports healthy red blood cell production, helps curb appetite, and gives your body's natural defenses a meaningful boost.

Black Walnut — Harvested from the hull of the American black walnut tree, this ingredient has been used for centuries to support a balanced internal environment. It brings a rich supply of antioxidant compounds and has been studied for its ability to discourage unwanted yeast and fungal overgrowth, making it a valued partner in digestive and immune wellness.

Parsley — Far more than a garnish, parsley is one of nature's most concentrated sources of protective flavonoids and carotenoids. It supports healthy circulation by helping keep homocysteine levels in check, and its key active compound, apigenin, has been shown in research models to support healthy blood pressure and arterial comfort.

Sarsaparilla — Sarsaparilla root has been treasured in traditional herbal practice across the Americas and Asia for hundreds of years. Modern research confirms it carries potent antioxidant and anti-inflammatory compounds, and it has been studied for its ability to support a balanced immune response and ease occasional joint discomfort.
