

NATURE'S SUNSHINE

Children's Elderberry Immune

Vegan

Non-GMO

Gluten Free

Dairy Free

Soy Free

GOOD FOR

Immune System

Respiratory System

Musculoskeletal System

SIZE **60 gummies**

ITEM # **23801**

SERVING **1-2**

SUPPLY **30-60 days**

DIRECTIONS FOR USE Children ages 2-3: Chew one (1) gummy per day. Age 4+: Chew two (2) gummies per day. Chew completely before swallowing.

— How the Key Ingredients Work

Children's Elderberry Immune brings together time-honored elderberry with key nutrients like vitamin C and zinc to give growing kids a well-rounded boost for their natural defenses. Every ingredient plays a role in helping the body stay strong, recover comfortably, and feel its best day after day.

Elderberry — Elderberry has been used in folk traditions for centuries, and today it's one of the most researched botanicals for kids' immune health. The dark berries are packed with natural plant pigments that act as powerful antioxidants, helping the body fight back against everyday seasonal challenges and supporting a faster, more comfortable recovery.

Vitamin C — Vitamin C is one of the most important nutrients for a healthy immune system, and kids' bodies can't make it on their own — so they need it every day. It also helps the body absorb iron from food, supports the building of healthy tissue, and acts as an antioxidant that helps protect cells from everyday wear and tear.

Zinc — Zinc is an essential mineral that plays a starring role in keeping the immune system running smoothly. It's found in cells throughout the body and is involved in hundreds of everyday processes. Kids who get enough zinc are giving their natural defenses a solid foundation, and it also helps protect the body's cells with antioxidant support.

Pectin — Pectin is a natural fiber found in the walls of fruits and plants, and it does a lot of quiet, helpful work inside the body. It supports a comfortable, balanced digestive system by helping to regulate how quickly food moves through the gut, and it also feeds the friendly bacteria that live there — which are closely tied to overall immune health.

Sunflower Oil — Sunflower oil is included as a natural carrier in this formula and brings along its own bonus: it's one of the richest natural sources of vitamin E, a nutrient that helps protect the body's cells from damage. Vitamin E works as an antioxidant, helping to keep cell membranes healthy and supporting the body's overall defense system.
