

NATURE'S SUNSHINE

Kidney Activator (ATC)

GOOD FOR

Urinary System

Kidneys

Bladder

SIZE **50 Capsules**

ITEM # **973**

SERVING **1-2**

SUPPLY **25-50 days**

DIRECTIONS FOR USE Take 1-2 capsules daily with a meal.

— How the Key Ingredients Work

Kidney Activator combines time-honored herbs that have been trusted for centuries to help your body flush out what it doesn't need, keep your urinary tract feeling clean and comfortable, and give your kidneys the everyday care they deserve. Each ingredient brings its own tradition of supporting fluid balance, urinary wellness, and whole-body vitality.

Juniper Berries — One of the most celebrated urinary herbs in European tradition, juniper berries have been used for centuries to help the body produce more urine and flush the urinary tract. Recognized by Germany's Commission E and the European Medicines Agency, they support healthy fluid balance and help keep the bladder and kidneys feeling clear and comfortable.

Bearberry (Uva Ursi) — Bearberry leaf is a cornerstone of traditional urinary care in both European and Native American herbalism. Its active compound works as a natural antiseptic in the urinary tract, helping to keep unwanted bacteria in check. The German Federal Institute and European Medicines Agency both recognize its traditional role in supporting bladder and kidney wellness.

Parsley — Far more than a garnish, parsley is one of nature's richest sources of protective plant compounds including flavonoids and carotenoids that act as free-radical scavengers, helping defend the body's cells from everyday oxidative stress. It also provides folate to support healthy arteries, and traditional use documents its role in supporting normal blood pressure and healthy circulation.

Dandelion — The humble dandelion is a powerhouse of traditional wellness support. A published human study confirmed that dandelion leaf extract has a meaningful diuretic effect, helping the body move fluid along naturally. Dandelion is also a natural source of potassium, which supports healthy blood pressure, and its rich polyphenol content helps protect the body's organs from oxidative damage.

Chamomile — Chamomile brings a soothing, calming presence to this formula. Backed by clinical research, it helps ease abdominal discomfort and digestive unease, which often accompanies urinary or kidney stress. Its powerful antioxidant activity has been confirmed in a randomized clinical trial, and its gentle relaxing properties help the whole body feel more at ease during times of physical stress.
